

Ahmedabad → Pipavav:

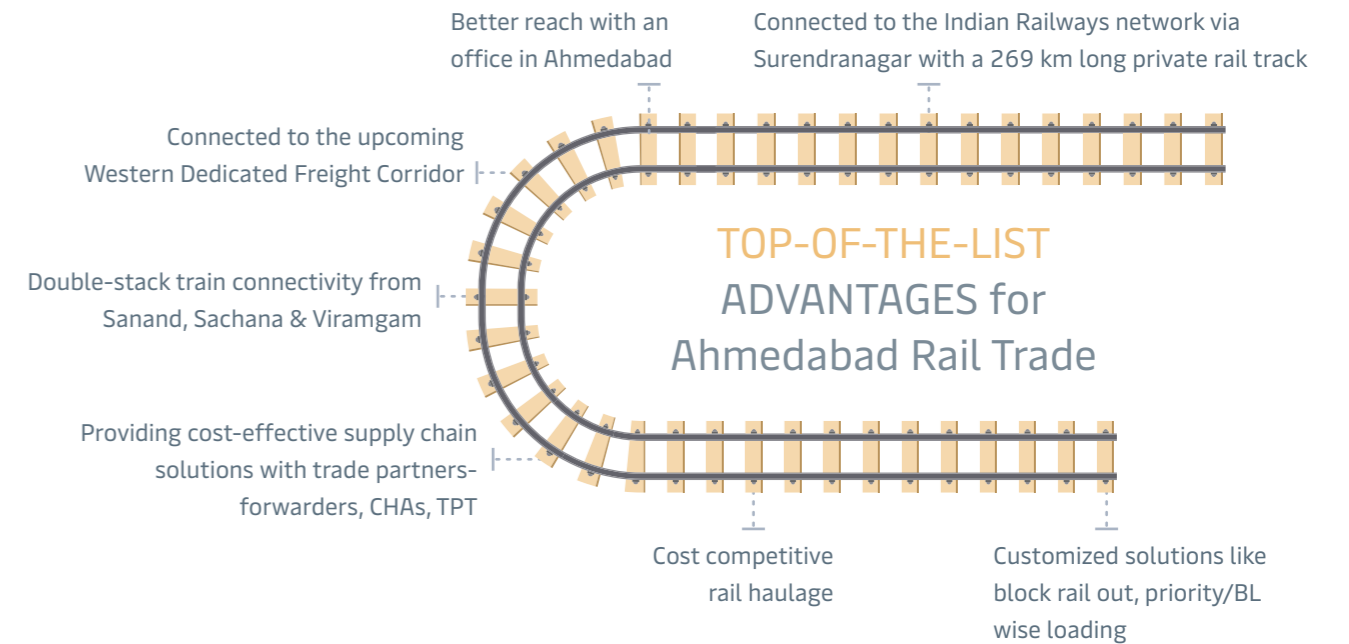

An efficient & cost-effective partnership for rail shipments

APM Terminals Pipavav, an all-weather deep-water port, is strategically located at the main maritime route, and provides easy access to all main shipping lines.

Whether local connectivity to the hinterland, or global connectivity to important eastern and western global markets, APM Terminals Pipavav adds a logistical and economical advantage for rail shipments from Ahmedabad.

First Public Private Partnership [PPP] in railways with Pipavav Railway Corporation Ltd. [PRCL] in India.

Pioneers in India in starting double-stack container train. The first double stack train, was moved from ICD Jaipur to Pipavav port on 23rd March 2006. It carried 180 TEUs, as against 90 TEUs carried in a single stack train.

STATE-OF-THE-ART INFRASTRUCTURE for Containers
